

WELCOME!

Senior Citizens Assisting Education

“We believe in the importance of community partnerships in the education of all students.”

—Simsbury Public Schools Core Belief

Are you a senior citizen and have some time and talent to share with students?

Through a pilot project called **Senior Citizens Assisting Education (SCAE)**, new opportunities are available for senior citizens to volunteer in the Simsbury Public Schools. Seniors can apply their organizational skills while working in the media center or classroom, spark an interest in books while reading to young students, lend a welcome helping hand in the school office, or just simply connect with young people as they supervise students in the lunchroom or hallways. Volunteers who donate 30+ hours of their time are eligible for a gift card for use at local businesses. *Don't miss this chance to stay involved, be active, and make a difference in the Simsbury education community!*
