

ACCIDENT REPORTS (Connecticut Uniform Police Crash Report)

Cost: \$5.00

We recommend you call ahead to determine if the report is available. Please have the incident number available, if possible. Otherwise, provide information such as driver's name, officer's name, date and location of accident. Our accident reports are not available online.

Typically, accident reports are available in 4-10 business days. However, the date of availability can vary due to many factors; including length of investigation, severity of injury, number of involved vehicles, the processing of witness statements, obtaining proof of current registration and insurance information, etc. Additionally, the officer and supervisor's work schedules impact the completion date.

Some accidents may have supplemental reports and/or pictures available. There is an additional charge for these documents. Please contact us at 860-658-3125.
