3. Presentation of the FY22/23 Budget Process and Overview
Ms. Heavner opened by presenting the Board of Finance budget process overview and the roles and responsibilities of the Board of Finance. She reported that 67% of taxes are spent on education, 27% on the town and 6% on debt service. She also noted that the majority, 86%, of the towns revenues comes from property tax and the rest comes from grants, fees, and other sources.

Ms. Heavner noted that in order to balance the budget they work to meet the needs and priorities of the town and schools as well as satisfying their long-term commitments to town employees in the form of pensions and other post-employment benefits called OPEB, and to the holders of their capital debt. She added they aim to preserve the towns long-term fiscal health and use conservative assumptions about their future revenues and reserves while at the same time keeping the town affordable to their residents and businesses.

Ms. Heavner reported the town’s long term obligations make up 9.12% of the budget and provided information on how they keep an eye on the economic condition as well as the fiscal health of the town. She then provided an overview of this years proposed budget numbers with a total spending of $114,941,272 which represents an increase in expenditures of 8.46% over last year. She highlighted the 22.09% increase in the Board of Selectman’s proposals explaining that it includes proposals that will be funded this year by federal pandemic dollars under the American Rescue Act (ARPA). She also noted that property taxes may remain flat or decrease as state legislation is proposing a capped mill rate on vehicles taxes.
4. Presentation of the Proposed FY22/23 Board of Education and Board of Selectmen Operating and Capital Budgets
Ms. Salina presented an overview of the Board of Education proposed budget. She highlighted the guideline they followed, their budget development process and their priorities. She stated the Board of Education approved budget is $77,030,819 which is an increase of $2,584,239 or 3.47% over last year’s operating costs, and is inclusive of the non-public schools budget.

Ms. Salina highlighted the budget context, personnel budget drivers, identified needs, and spoke about their approach to offsetting costs by utilizing grant funding. She stated enrollment drives much of their planning and reported 5-year projections indicating an increase of 445 (11%) students which she said is the key factor when planning staffing levels. She noted that salaries and benefits account for 80% of their overall costs, followed by insurance. She provided details on the staffing needs at the Elementary and the Secondary level, reported on the drivers for these needs, how they plan on offsetting the cost, and summarized the personnel portion of the budget represents $2,227,232 or 2.99% increase over last year’s costs.

Mr. Casey presented on the various capital improvement projects which totaled $4,500,000.

Ms. Mackstutis presented on the Board of Selectman proposed 2022/2023 budget. She highlighted their priorities and stated their focus was on keeping their town residents and business community safe and improving and investing in their valued town assets. She provided a summary of the budget which indicated a flat mill rate resulting in no tax increase and stated this was due to the 3.72% grand list growth which brought in an extra $3.5M, along with the $3.7M ARPA money received. She reported the proposed budget increased 7.5% over last year with a total operating cost of $26,740,021, which does not include the operating transfers, cash for capital or debt services. She provided further budget highlights with the largest item on the list being the Simsbury Farms Irrigation Project at $2.55M which will be a separate Referendum item.

Ms. Mackstutis reported on the revenue assumptions and provided an overview of the service improvements for FY22/23, with the largest driver being staffing improvements. She reported on the ARPA funding and items to be funded utilizing these dollars.

Ms. Mackstutis provided an overview of the capital projects and noted the golf course irrigation is the largest.
