ADDENDUM No. 1

TOWN OF SIMSBURY
Invitation to Bid
FOR
Painting Improvements at Simsbury Public Library

The information provided in this Addendum is intended to supplement and clarify the existing information in the ITB and is not to replace any part of the specification unless clearly indicated as such.

Below are responses to questions we received to date:

**Question:** Is the existing color scheme changing?
**Response:** Yes. The color schedule is provided in this addendum.

**Question:** What line of paint for each manufacture is to be used?
**Response:** The new paint specification is provided in this addendum. This should REPLACE Section 3.5 of the 09 90 00 Painting Specification.

**Question:** Who will install the vinyl wall protection, chair rail and corner guards?
**Response:** The Contractor awarded the bid will be responsible for supplying and installing.

**Question:** What are the Library’s hours on Saturdays and Sundays?
**Response:** The Library’s hours are provided as at attachment to this addendum.

**Question:** When is this project anticipated to start?
**Response:** The Town has some flexibility with the start date. We would like to start by September.

**Question:** Where can the projects plans and documents be found?
**Response:** Bid documents and bid plans can be found on the Town of Simsbury website under Public Bids/RFPs. Additionally they can be found on the Connecticut State Contracting Portal.

**Question:** Are the stairwells being painted?
**Response:** Both stairwells are to be painted.

**Question:** The plans show one closet in the main program room as being painted. Is this correct?
Response: None of the closets in the main program room are to be painted.

Question: Are the hanging picture rails being removed?
Response: The Contractor can choose to remove and reinstall, or cut in around the picture rail systems.

Question: Is the lettering above room entrances and collection areas being removed?
Response: Yes, the Contractor is responsible for removing and disposing of all lettering.

Question: Are the restrooms being painted?
Response: The restroom wall surfaces are primarily tile. Any trim or other surfaces in the restrooms currently painted shall be included in the Base Bid price.

Question: Is the elevator door and metal jamb to be painted?
Response: The metal jamb shall be painted; the door will not be painted.

Question: Can the paint be cut-in around shelves and mounting brackets?
Response: The Contractor may elect to remove individual shelves and re-install, or leave in place and paint behind them, provided a professional finished product is achieved. It is recommended that the uprights and mounting brackets are not removed and reinstalled, to alleviate the Contractor’s responsibility for future failure.

Question: The specifications call for one coat of primer and two coats of paint on all surfaces. Does the prime coat need to be applied to previously painted surfaces?
Response: Replace 3.5 Interior Surface Schedule of the 09 90 00 Paint Specification with revised 3.5 Interior Surface Schedule included in this Addendum. The prime coat on walls is omitted with the exception of wall surfaces that receive repairs. The prime coat for trim and door frames may be omitted provided the Contractor takes the necessary steps to ensure the new paint achieves proper adhesion to the existing surfaces. The Contractor will be responsible for addressing any poor adhesion or bleed through.
Section 09 90 00
1.4 SUBMITTALS

The following submittal requirement shall be added in addition to the current submittal requirements:

The Town of Simsbury will require the submission of Safety Data Sheets (SDS) for all products used on this project. This includes, but is not limited to, primer, paint, caulks and sealants, joint compound, cleaners and degreasers. All SDS sheets must be packaged in a three-ring binder and submitted prior to commencing work. No product will be permitted for use on this project without the submission of the associated SDS sheet.
SCHEDULE - INTERIOR SURFACES

A. Wood - Painted:
   1. Touch-up with latex primer as needed; multi-purpose latex primer sealer; Benjamin Moore “Fresh Start” NO23, or equal.
   2. Two coats of latex enamel, semi-gloss; Benjamin Moore “Regal Select” 551, or equal.
