To receive consideration, all questions must be submitted by **4:30 pm on October 3, 2022.** A response to all relevant questions will be provided before the close of business on **October 7, 2022,** via an addendum that will be posted on the Town website at: www.simsbury-ct.gov.

3. **Background**

The Town of Simsbury was incorporated as Connecticut’s twenty-first town in May 1670. It has a land area of approximately 34.5 square miles and a population of approximately 24,407. Centrally located in the heart of the New York - Boston corridor, Simsbury is a suburban community. Simsbury is located 20 minutes northwest of Hartford and 20 minutes southwest of Bradley International Airport. Simsbury operates under a Town Manager-Board of Selectmen form of government with the Town Manager serving as the Chief Executive Officer responsible for overseeing the day-to-day operations of the Town.

The DEI Council is an official Town committee of volunteers appointed to represent the community at large and serve as champions for DEI in Simsbury. The DEI Council leads several town-wide initiatives to foster awareness and promote action to help Simsbury become more diverse, equitable and inclusive. It has four subcommittees: Events, Outreach, Housing, and Data.

4. **Scope of Services**

The selected Consultant will collect and analyze data through an inclusive process that involves key stakeholders, key informant interviews and community conversations. Consultant will contract with the Town to design and implement a comprehensive approach that results in the following deliverables:

a) **A comprehensive data collection plan** that includes a broad set of indicators (e.g., perceptions, process measures, outcomes and impact) on diversity, equity and inclusion in Simsbury (including issues of race, income, age, ability, religion, sexual orientation, and discrimination), within the community overall and specifically within the following five focus areas: criminal justice; education; food security; heath; and housing.

b) **A comprehensive baseline assessment** of DEI in Simsbury overall (e.g., perceptions, demographics, composition of town staff and elected officials, policies, business climate, etc.), and across the five key focus areas noted above, using qualitative and quantitative data from primary and secondary sources.
c) A collection of qualitative data engaging more personal narratives and stories that supplement collected data. We predict it will be important to dig into the nuances embedded in collected quantitative data to better connect our work to our community.

d) A set of recommendations on 1-year, 5-year, and 10-year achievable DEI targets for Simsbury, including potential actions the town can take to improve DEI.

e) A document detailing a repeatable process and estimated budget that the Town can implement after project conclusion to periodically update the indicators, track progress, and identify insights and opportunities for improvement.

f) Submission of a final report that includes data collection, methodologies, results (including qualitative narratives collected, if any), and action steps as outlined above, by June 2023.

g) Presentation to the Board of Selectmen and the DEI Council at the conclusion of the project.
