4. Bid Submission Instructions:

A. One (1) original and one (1) copy of all bids must be submitted in a sealed envelope with the bidder’s name on the outside of the envelope and clearly marked “Sealed Proposal for Town of Simsbury – PAINTING IMPROVEMENTS AT SIMSBURY FARMS ICE RINK. If forwarded by mail or courier, the sealed envelope must be addressed to “Amy Meriwether, Director of Finance, Town of Simsbury, 933 Hopmeadow Street, Simsbury, CT 06070”. Bids must be at the Town Hall prior to 10 a.m., on Thursday, September 3, 2020. Postmarks are NOT an acceptable waiver of this policy.

B. Ditto marks or words such as “SAME” must not be used for the bid to be considered.

C. All information must be submitted in ink or typewritten. Errors, alterations or corrections must be shown on both the original and all required copies, each of which must be initialed by the person signing the bid.

D. Bids are considered valid for ninety (90) days after bids are opened. Bidders may not
withdraw, cancel or modify their bid during this ninety (90) day period after bids are opened.

E. An authorized person representing the legal entity of the bidder must sign bids.

F. The inability to meet any specified requirement(s) must be stated in writing and attached to the bid form, or written on the bid form. If no exceptions are noted, it shall be assumed that the terms of the Invitation to Bid have been accepted.

G. The Town of Simsbury reserves the right to waive any minor informality in a bid when such a waiver is in the best interest of the Town.

5. Questions:

Any questions about this project shall be directed to: Mr. Thomas Tyburski Director of Culture, Parks and Recreation by fax (860) 408-9283, email at ttyburski@simsbury-ct.gov, or by mail to the Department of Public Works, 933 Hopmeadow Street Simsbury, CT 06070. To receive consideration, such questions must be received at least five (5) business days before the established date for receipt of bids. No oral interpretations shall be made to any respondent as to the meaning of any of the bid documents. Every request for an interpretation shall be made in writing. The Town will respond to all appropriate questions via an addendum. Such addenda will become part of this Invitation to Bid and the resulting contract. At least three (3) days prior to the receipt of bids, the Town will post a copy of any addenda to its website, located at: http://www.simsbury-ct.gov/finance/pages/public-bids-and-rfp. It shall be the responsibility of each bidder to determine whether addenda have been issued, and if so, to download copies directly from the Town’s website.

6. Specifications

The Town requires work to include surface preparation/cleaning, a primer for all rusted surfaces, and finish coat for all surfaces. Paint will be applied in accordance with manufacture’s direction. Complete surface preparation and use applicators and techniques best suited for the substrate and the type of material being applied per the manufacturer’s recommendation.

### SPRAYLASTIC® EXTERIOR WATERBORNE DRY FALL SEMI-GLOSS

#### SURFACE PREPARATION

**WARNING!** Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. Exposure to lead dust or fumes may cause brain damage or other adverse health effects, especially in children or pregnant women. Controlling exposure to lead or other hazardous substances requires the use of proper protective equipment, such as a properly fitted respirator (NIOSH approved) and proper containment and cleanup. For more information, call the National Lead Information Center at 1-800-424-LEAD (in US) or contact your local health authority.

Do not use hydrocarbon solvents for cleaning.

**Iron & Steel**
Minimum surface preparation is Hand Tool Clean per SSPC-SP2. Remove all oil and grease from surface by Solvent Cleaning per SSPC-SP1. For better performance, use Commercial Blast Cleaning per SSPC-SP6/NACE 3, blast clean all surfaces using a sharp, angular abrasive for optimum surface profile (2 mils). Prime any bare steel within 8 hours or before flash rusting occurs.

**Aluminum**
Remove all oil, grease, dirt, oxide and other foreign material by Solvent Cleaning per SSPC-SP1.

**Galvanized Steel**
Remove all oil, grease, dirt, oxide and other foreign material by Solvent Cleaning per SSPC-SP1. When the surface has been treated with chromates or silicates, first Solvent Clean per SSPC-SP1 and apply a test patch. Allow paint to dry at least one week before testing adhesion. If adhesion is poor, brush blasting per SSPC-SP5 is necessary to remove these treatments. Rusty galvanizing requires a minimum of Hand Tool Cleaning per SSPC-SP2. Prime the area the same day as cleaned.

**Concrete and Masonry**
For surface preparation, refer to SSPC-SP13/NACE 6, or ICRI No. 310.2, CSP 1-3. Remove all loose mortar and foreign material. Surface must be free of laitance, concrete dust, dirt, form release agents, moisture curing membranes, loose cement and hardeners. Concrete and mortar must be cured at least 28 days @ 75°F. On till-up and poured-in-place concrete, commercial detergents and abrasive blasting may be necessary. Fill hair cracks, air pockets and other voids. Primer required. Brick must be allowed to weather for one year prior to surface preparation and painting. Primer required.

**Prefinished Sidings (baked-on finishes)**
Remove all oil, grease, dirt, oxide and other foreign material by Solvent Cleaning per SSPC-SP1. Primer required.

**Previously Painted Surfaces** - If in sound condition, clean the surface of all foreign material. Smooth, hard or glossy coatings and surfaces should be dulled by abrading the surface. Apply a test area, allowing paint to dry one week before testing adhesion. If adhesion is poor, additional abrasion of the surface and/or removal of the previous coating may be necessary. Referee surface for adhesion. If paint is peeling or badly weathered, clean surface to sound substrate and treat as a new surface as above. Recognize that any surface preparation short of total removal of the old coating may compromise the service life of the system.

#### APPLICATION PROCEDURES

Apply paint at the recommended film thickness and spreading rate as indicated on front page. Application of coating above maximum or below minimum recommended spreading rate may adversely affect coating performance. Spreading rates are calculated on volume solids and do not include an application loss factor due to surface profile, roughness, or porosity of the surface, skill, and technique of the applicator, method of application, various surface irregularities, material lost during mixing, spillage, over thinning, climatic conditions, and excessive film build.

#### SAFETY PRECAUTIONS

Refer to the Safety Data Sheets (SDSs) before use.

#### PERFORMANCE TIPS

Mix paint thoroughly to a uniform consistency with slow speed power agitation prior to use. Strip coat crevices, welds, and sharp angles to prevent early failure in these areas. When using spray application, use a 50% overlap with each pass of the gun to avoid holidays, bare areas, and pinholes. If necessary, cross spray at a right angle. During the early stages of drying, the coating is sensitive to rain, dew, high humidity and moisture condensation. Plan painting schedules to avoid these influences during the first 16-24 hours of curing.

### APPLICATION

**Refer to the SDS sheet before use**

| **Temperature:** | **40°F minimum** |
| **(Air, surface, and material)** | **110°F maximum** |
| **Relative humidity:** | **85% maximum** |

The following is a guide. Changes in pressures and tip sizes may be needed for proper spray characteristics. Always purge spray equipment before use with listed reducer. Any reduction must be compatible with the existing environment and application conditions.

**Reducer**
A greater than 5% reduction will have an adverse effect on the dryfilm and flash rust characteristics of this coating.

### CLEANUP INFORMATION

Clean spills and splatters immediately with soap and warm water. Clean hands and tools immediately after use with soap and warm water. After cleaning, flush spray equipment with compliant cleanup solvent to prevent rusting of the equipment. Follow manufacturer’s safety recommendations when using solvents. In order to avoid blocking of spray equipment, clean equipment before use or before periods of extended downtime with water.

### CAUTION

Overspray landing on hot surfaces may adhere to these surfaces. Immediately remove overspray from hot surfaces before adhesion occurs. Note that surface temperatures can be higher than air temperature.

7. **Measurement and Payment**

All work will be paid as provided in the Bid Form for all work, including labor and materials, to complete the services described in this Invitation to Bid. Progress payments will be made monthly. No payments will be made for mobilization or materials.

The Contractor shall be responsible for all measurements and counts needed to provide pricing for the “Base Bid” and “Alternates 1”, “2”, “3”, and “4” areas.

Payment for painting areas labeled as “Base Bid” on the plans and in the Schedule of Prices shall be a lump sum amount. The price stated is full compensation for materials, labor, equipment, and incidental work necessary to complete the repairs, priming and painting of all, panels, joists, beams, piping, speakers, purlins, turnbuckles, diagonal rods, interior roof ends.

Payment for the “5000 sq. /Ft of the insulated white panels” labeled on the plans and in the Schedule of Prices shall be paid by the number of square feet supplied and installed. The price stated is full compensation for materials, labor, equipment, and incidental work necessary to complete the installation of the vinyl wall covering as shown on the Drawings and specified here.

Payment for the “Columns Supports” labeled on the plans and in the Schedule of Prices shall be paid by the number of columns painted.

Payment for replacing the insulated panels “Alternate 1”, columns Alternate 2”, Alternate 3” Second Coat and Alternate 4” on the plans and in the Schedule of Prices shall be a lump sum amount. The price stated is full compensation for materials, labor, equipment, and incidental work necessary to complete the repairs, priming and painting of all surfaces and columns supports.

8. **Presumption of Bidder Being Fully Informed:**

At the time the first bid is opened, each bidder is presumed to have read and is thoroughly familiar with all bidding documents, as well as, all contract documents for this project. Failure or omission of the bidder to receive or examine any documentation or information concerning this bid shall in no way relieve any bidder from obligations with respect to their bid.

9. **Pre-Bid Conference:**

A MANDATORY Pre-Bid Site Visit will begin at the site at Simsbury Farms Ice Rink, 100 Old Farms Road, West Simsbury, CT 06092 on **Friday, August 28, 2020, at 10:00 AM local time**. Attendance is mandatory. Any bid submitted by an entity that did not attend the Pre-Bid Conference will not be opened.

10. **Interpretation of Acceptable Work:**

The specifications, bidding and contract documents are to be interpreted as meaning those acceptable to the Town of Simsbury. The Town will issue any substantive changes or interpretations in writing as an addendum.

11. **Tax Exemptions:**

The bidder shall be aware that the Town of Simsbury is exempt from Federal Excise Taxes and
Connecticut Sales and Use Taxes. Appropriate tax-exempt forms will be provided to the successful bidder(s) as part of the contract award process.

12. Insurance Requirements:

The firm must carry insurance under which the Town is named as an additional insured, as follows:

Such insurance must be by insurance companies licensed to write such insurance in Connecticut against the following risks with the following minimum amounts and minimum durations.

Insurance under B, and C above must provide for a 30 day notice to the Town of cancellation/or restrictive amendment.

Insurance under B and C above must be for the whole duration of the contract and for twelve (12) months after contract completion by the Town.

Subcontractors must carry A, B, and C in the same amounts as above for the duration of the project and until contract completion by the Town.

Certificates of insurance must be submitted to the Director of Culture, Parks and Recreation prior to the signing of the contract and within ten days of notification of award of contract. Should any insurance expire or be terminated during the period in which the same is required by this contract, the Director of Culture, Parks and Recreation shall be notified and such expired or terminated insurance must be replaced with new insurance and a new certificate furnished to the Director of Culture, Parks and Recreation.

Failure to provide the required insurance and certificates may, at the option of the Town, be held to be a willful and substantial breach of this contract.

13. Substitution for Name Brands:

Not applicable
14. Awarding the Bid:

The Town reserves the right to accept any bid or any part of bids, to reject any, all, or any part of bids, and to waive formalities and informalities in the bidding process. The Town at its discretion will award the bid to the lowest responsible bidder. That bidder is the person or firm who is qualified and competent to do the work, whose past performance is satisfactory to the Town, and whose bid documents comply with the procedural requirements stated herein. The Town reserves the right to award this bid to more than one bidder, if determined to best suit the needs of the Town. Alternates will be awarded if deemed to be in the best interest of the Town. Alternates are independent and neither, one or both may be awarded.

15. Rejection and/or Cancellation of Bids:

The Town reserves the right to reject or cancel any and all bids, or any part of any or all bids, if such action is deemed to be in the best interest of the Town.
