It takes more than a seat belt to keep kids safe in a car. Using the correct car seat or booster seat can be a lifesaver: make sure your child is always buckled in an age and size appropriate car or booster seat.

During Child Passenger Safety Week we encourage all parents and caregivers to reach out and have a certified technician inspect the car seat and show correct installation and use to ensure that their children are getting the very best protection and are in the right seat for their ages and size.

For more information or an appointment, call the Simsbury Police Department car seat line at (860) 658-3180.

Additional Information can be found at: www.nhtsa.gov or www.safekids.org
