Subject: 18 Rocklyn Drive Pool Removal Application

Good Afternoon Doreen,

Following up on our phone call, we just need the correct location of the pool to proceed with the application. I have attached the GIS Plot Plan showing an aerial view of the property as well as a close up image of the pool with the rough dimensions included. If you could confirm the location with a reply email we can add the documents to the application. The wetlands agent was requesting some additional information on the type of the equipment being used in the project to decide how to proceed with your application. If you could provide the contractor information for the contractor you are using we can reach out and get the details from them. Once we have the confirmation email and contractor information we can process your application. If you have questions on this matter, please call me directly at 860-658-3292.

Thank you,

Joseph Hollis
