Attachment To: Inlands Wetlands Permit Application

Property Address: 132 Terry'S Plain Road

Work Performed:

This work was already performed according to the Plans that were approved by the Town and the previous Wetlands Officer. A building permit was issued in accordance with those plans. The specific work performed was tree removal and stumping towards the rear of an 18.5-acre parcel approved for a single-family residence. Infringement of the 100' Upland Review Area is illustrated on the approved plot plan. No grade work has or will be done to this area. The area was cleared to take advantage of the southerly sky for a proposed solar panel installation.

Areas of wetland soils have been found at the highlighted areas per the map drawing and follow the elevation contour line of the map. In performing this work, no trees were stumped in wetland soils. Trees were plucked and the ground was left undisturbed in these areas. See attached for pictures and map.
