Project Location (provide detailed description & locus map): _____
Address, City, State & Zip: 987 MORMEADOW ROAD SIMSBURY, CT 06070
Lat. ° N, Long ° (Decimal Degrees): 41° 53' 06" N 72° 47' 49" W
Waterway Name: OWENS BROOK

Proposed Work Dates: Start: AUGUST 22, 2022 Finish: SEPTEMBER 30, 2022

Work will be done under the following GPs (circle all that apply):

2	5	6	9	10	11	12	13	14	15	17	18	19	21
---	---	----------	---	----	----	----	----	----	----	----	----	----	----

Area of Wetland Impacts (SF): Permanent: NONE Temporary: NONE

Area of Waterway Impacts (SF): Permanent: NONE Temporary: LESS THAN 0.0001 ACRE

TOTAL Project Impact (SF): Permanent: NONE Temporary: LESS THAN 0.0001 ACRE

Describe the specific work that will be undertaken in waters and wetlands: WRAPPING OF TWO EXPOSED PVC FIBER OPTIC CONDUITS WITHIN A NEW STEEL CONDUIT AT A STREAM CROSSING AT THE END OF THE CULVERT ON OWENS BROOK,

Have the THPOs and the CT SHPO been notified of the proposed work per the procedures in GC 11? If so, attach any responses received to this form. Yes date contacted 3/1/2022 No

Are there Federally listed endangered/threatened species, other than the northern long-eared bat, present? (see GC 12) Yes No

Confirm no SAVs are present or will be impacted: Yes No

Applicable to GPs:

2	5	6	9	10	11	12	13	14	15	17	18	19	21
---	---	---	---	----	----	----	----	----	----	----	----	----	----

Confirm no unconfined work with impact to diadromous fish (see App. H): Yes No

Applicable to GPs:

2	5	6	9	10	19
---	---	---	---	----	----

Confirm work complies with Stream Crossing BMPs (see App. G): Yes No

Applicable to GPs:

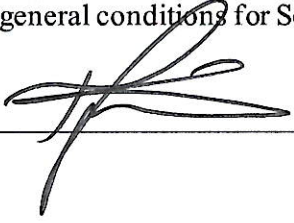

2	6	17	19
---	---	----	----

If GP 19 and work does not comply with Appendix G, identify date of Interagency Meeting where waiver was granted: Date of Meeting: NA
Identify interagency participants: CT DEEP: NA USACE: NA

Will your project include any secondary effects? (Secondary effects include, but are not limited to, non-tidal waters or wetlands drained, flooded, fragmented, or mechanically cleared resulting from a single and complete project. See Appendix F - Definitions.) If YES, describe here:

NONE

Your signature below, as permittee, indicates that you accept and agree to comply with the terms, eligibility criteria, and general conditions for Self-Verification under the Connecticut GPs.

Subject: RE: Simsbury CT Conduit Existing Exposed Conduit Crossing in Stream Bed
Attachments: CT General Permit 2021.pdf

Hi Todd,

It appears that the project would require a federal Section 401 and state 404 authorization. It appears that this project could qualify for the General Permit (attached) under activity GP6 Utilities Lines under the Self-Verification. Please see page 24 and 25 of the attached document for all the eligibility requirements. Appendix E on page 64 contains the Self Verification Form that you need to fill out and send to the Army Corps of Engineers and the DEEP.

I had our Fisheries Division review the project also. They request that as a best management practice, any unconfined instream work should be restricted to the period between June 1 and September 30th, inclusive. It appears that this would be the only permit required. If you need access over state land that is not part of the easement I recommend contacting DEEP Land Acquisition and Management.

If you have any questions please let me know.

Danielle

Danielle,

Yes, this is all State land but AT & T has an easement through it. Since it is a very low flow stream, we are planning on setting up a coffer dam on the other side of the culvert and pumping the water around the proposed work site.

Please let me know if you have any other questions.

Thanks,

Todd

Hi Todd,

I have reviewed the information that you sent us. Is the proposed work located on state land? Do you have a plan for handling the water during construction yet?

To whom it may concern,

Please find attached our pre-application for an Existing Exposed AT & T Fiber Optic Conduit in a Stream Bed in Simsbury CT. We also attached a location map and pictures of the washout and surrounding area.

Please let me know if you have any questions.

Thanks,

Todd
