Town of Simsbury
Conservation Commission / Inland Wetlands & Watercourses Agency
933 Hopmeadow Street
Simsbury, CT 06070

**Subject: DEEP Individual Permit Application for Dam Safety
Orkil Pond Dam, ID# 12817, Hazard Class: A
Municipality: Simsbury**

Dear Conservation Commission / Inland Wetlands & Watercourses Agency:

On January 20, 2016, the Town of Simsbury received a routine dam inspection report from WMC Consulting Engineers, Inc. who identified minor corrosion in the drop inlet intake pipe. Since this inspection the inlet pipe has been monitored and significant corrosion has occurred since. The Town of Simsbury hired Lenard Engineering, Inc. to prepare a Hydrologic and Hydraulics (H&H) Report. This H&H Report found Orkil Pond Dam does not meet current design standards. The Simsbury Engineering Department has since worked together with Lenard Engineering to prepare plans, specifications, and permits to repair Orkil Pond Dam to meet current design standards.

Although no local wetlands permit is required, we respectfully send this letter as a courtesy to the Town of Simsbury Conservation Commission / Inlands Wetlands & Watercourses Agency of the construction that is anticipated to be completed by the end of the 2022 calendar year. Please contact me at 860-658-3260 if you have any questions.

Sincerely,

Daniel F. Gannon
Project Engineer
