Re: Installation of Solar panels at the Ensign House 690 Hopmeadow St

As the Plant Engineering manager for Dyno Nobel Simsbury site I give authorization for the installation of a solar project with a 2' setback from the property line on the north side of the Dyno Nobel installation. I will require that a survey of the property line is completed to ensure that the installation is not on Dyno Nobel property.

During the construction of the solar project all work crews must not enter Dyno Nobel property.

John J Walsh
Plant Engineering Manager
