

Do you know what your kids are inhaling? Let's Talk.

Join us for a community-based panel discussion on vaping, marijuana, and other drugs. The panel will include school resource officers, the Simsbury Community and Social Services director, a family therapist, and the Farmington Valley Health district director. Questions will be taken from the audience and the panel will respond to questions submitted by local students.

Among the topics for discussion are.

- How marijuana available today differs from what was available to previous generations.
- Who is vaping and what are the dangers? See what paraphernalia the School Resource officers have collected from Simsbury students.
- Do you know what to ask your kids and what to look for?

Ask questions and join the conversation.

This program is appropriate for middle school age and above.

Wednesday, January 9th at 6:30 p.m.

Simsbury Public Library

Program Room

Presented by the Simsbury Community for Care
