Include any additional information in an attached memorandum.):

As noted in Tom Roy's memorandum to the Board of Selectmen dated January 10, 2013, with the end of required use of CRRA for recycling the Town of Simsbury undertook a study to determine the best possible course of action for handling the Town's recyclable materials. Working with MSW Consultants, the Department of Public Works concluded that using our local waste haulers "will net the same revenue and . . . provide a financial incentive for our local haulers to promote and improve our residential recycling rate."

Based on this conclusion Town Staff, working with Town Counsel, prepared proposed amendments to the Town's recycling ordinance (Sections 133-12 through 133-22 and 133-27 of Chapter 133, Article II of the Code of Ordinances) which:

- Eliminate outdated language requiring that all recyclable materials be delivered to CRRA; and
- Include a new requirement for recycling collectors (trash haulers) to register with the Town of Simsbury and to pay the Town a set annual fee for the registration based on the number of tons of recyclable materials collected.

As noted in Mr. Roy's memorandum dated July 3, 2013 the Recycling Committee and the Town's local trash/recycling collectors were involved in preparation of the revised ordinance, which is attached.

8. **Description of documents included with submission** (All documents must be in final form and signed by the appropriate party.):
