6. **Summary of Submission**

   During the FY17 budget planning process, the Board of Finance asked that FY16 supplemental appropriations be made for two items that would give the Board of Education FY17 budget relief. The first was to pay cash from reserves for $115,000 worth of Capital Non-Recurring items, giving the BOE $23,000 in operating budget relief (for the next 5 years). The second item was to pay cash for the BOE’s application for NEASC Certification, rather than fund out of the operating budget as this is a once every 10 year occurrence.

August 31, 2016

Dear Ms. Butler,

It has been my privilege to serve as an unaffiliated member of the Simsbury Board of Ethics since January 2012. However, due to an impending relocation, I must regretfully resign from my position after the Board’s September meeting.

I understand that the search for a new unaffiliated member is well underway, as my term was to expire in January 2017. I would be glad to meet with the new member to discuss general procedural matters.

I am grateful for the opportunity to have served on the Simsbury Board of Ethics.

Sincerely,

Polly Maier

Others in attendance included: Thomas Cooke, Director of Administrative Services, Tom Roy, Director of Public Works and other interested parties.

PLEDGE OF ALLEGIANCE

Everyone stood for the Pledge of Allegiance.

PUBLIC HEARING

To receive public comment concerning a proposal to lease land at the Town’s closed landfill site to Ameresco, Inc. for the purpose of installing a Community Shared Solar Array in connection with a Connecticut Department of Energy and Environmental Protection pilot program.

Ms. Heavner reminded everyone that they can speak for 5 minutes each on this issue. If there is time left, they may come back to speak again.

Joan Coe, 26 Whitcomb Drive, said she was against this solar project at the landfill. She said the Town was given the land by Eno Trust to help the poor of Simsbury and it is too close to the Airport. She doesn’t feel this project will be viable in the future.

Robert Kalechman, 971 Hopmeadow Street, said he has heard a lot of talk about solar panels and most of it has been complaints. He spoke about using 100 acres of land and cutting down trees. He feels the project isn’t even approved by the State so the Board doesn’t really know what they are voting on.

Bradford Griswold, the Manager of Simsbury Airport, said he is a huge fan of solar. However, he cannot endorse or recommend this project. He feels this is a great reflecting hazard to the airport approach at the Simsbury Airport. He showed everyone a simulation of the issue. The pilots will be “flash blind” for at least 15 seconds and this would be a huge hazard, which could result in death. More information is needed on this project before he could possibly endorse it.

Bill Holling, 16 Wood Haven Drive, had concerns when he read the article on this solar issue. He said the dollar amount of savings is incorrect. He thinks the amount should be $70/year not $700/year.
Bob Beinstein, Fairview Street, and on the Clean Energy Task Force, said there have been conversations with the Airport, and they all agree that more information is needed. This is not a “done deal.” He said this is a State pilot program, which is all done on spec and Ameresco is doing this at no cost to the Town. We need to learn how to reduce energy consumption now. He is in favor of this project, but knows there are a lot of variables.

Mark Scully also on the Clean Energy Task Force, said he is proud that Simsbury is in the position to be able to bid on this pilot program. A lot of work was done on this. He feels this is a wonderful service to offer to the Town. He does understand the airport issues are of concern and knows the FAA will require a study before any approval can be made. This would be a great opportunity for the Town.

Mr. Griswold reiterated that his only concern on this project is the safety at the Airport and he just feels more details are needed before approving it. He has no other issues about this project, but the safety concerns.

Mr. Kalechman feels the solar panels can be a danger to life if put there. He wants to make sure the State approves this before we move forward. Also, he doesn’t feel that the savings are really there.

Mr. Beinstein reminded everyone that the Board is not voting on the actual solar panels, just on the land issue. If safety issues are met and the State doesn’t approve this then the project won’t go through.

Ms. Coe said she heard a lot tonight and doesn’t feel the Board should go forward with this without more information.

CLOSE PUBLIC HEARING

Mr. Askham made a motion to adjourn the Public Hearing at 6:35 p.m. Ms. Lang seconded the motion. All were in favor and the motion passed.

PUBLIC AUDIENCE

He said they gave a new meaning to an old proverb. He spoke about where he came from and what the program has done for him, including leadership skills. He invited everyone to stop by and say hello.
Joan Coe, 26 Whitcomb Drive, spoke about the final Charter revisions being voting on in November, some issues at concerts, a sign she created, the new lightbulb changes, hours at the Town offices, and other issues.

Robert Kalechman, 971 Hopmeadow Street, spoke about feeling it is his responsibility and duty to speak at public audience and try to help the Town, street lights and sidewalks, solar panels, and other issues.

Bradford Griswold thanked the Board, Tom Roy and the Municipal Services for their help with the solar panel issues. He reminded everyone about the Simsbury Fly-in and Car Show on September 18th. He reminded everyone that is only concern is safety at the Airport.

**SELECTMEN ACTION**

a) **Possible Action regarding proposed to lease land at the Town’s closed landfill site to Ameresco, Inc. for the purpose of installing a Community Shared Solar Array in connection with a Connecticut Department of Energy and Environmental Protection pilot program**

Mr. Roy gave key points on this proposal. He said this is a pilot program that the DEEP is offering. This was first brought before the Board back in January. It is a competitive process. There isn’t a lot else that can be done with the landfill property. He said Ameresco has dealt with airport issues before and no one will risk lives.

Mike Zimmer from Ameresco, Inc. said his math was incorrect and it is a $70 savings not $700 savings. He said this project allows utility customers to promote solar at no risk. He does feel the Airport issues are of concern and will be looked at further. If the issues aren’t corrected and approved by the FAA then the project won’t go forward.

He said this meeting is just about obtaining the lease option to go into the pilot program at no cost to the Town. He showed a presentation with key points and where they have done approximately the same type of project in Lowell MA. Ameresco will be leasing land from the Town for 20 years and selling 100% of solar output to Eversource. Ameresco cannot enter a bid without the lease option. Every other issue must be resolved and approved before the project can move forward.

There were questions and discussion from the Board on safety issues, the site, possible issues if Ameresco defaults, and approvals that still need to be made. Attorney DeCrescenzo noted that the DEEP requires a letter of intent, which is not binding by either party.

Ms. Heavner said she spoke to Attorney DeCrescenzo about giving back to the poor, which was the intent of the Eno Trust. There isn’t a lot that can be done with this landfill site and the
savings received would go to the poor of Simsbury. Tonight is just about starting the process, but a lot of other approvals need to be completed before the project can actually move forward.

Mr. Askham made a motion to approve the option agreement for the possible lease of 6± acres of Town owned land to Ameresco, Inc. subject to the changes to the draft option agreement as discussed by the Board of Selectmen and to approve the execution of the final option agreement with final approval by the Town Attorney. The changes discussed by the Board of Selectmen include the following:

1) Right of refusal on the assignment
2) Favorable review and recommendation of FAA to the satisfaction of the Board of Selectmen
3) Approval of site plans by the Board of Selectmen
4) Adequate indemnity to protect the Town for the landfill cap

Ms. Lang seconded the motion. All were in favor and the motion passed.
